

## Subject index

- albumin**, total protein, preterm babies, 81  
**ambulatory monitoring**, heart rate, heart rate variability (HRV), sudden infant death syndrome (SIDS), 57
- behavioural development**, intrauterine growth retardation, head circumference, minor neurological dysfunction, 1  
**behavioural states**, respiratory reflexes, fetus, ultrasound, breathing movements, 145  
**bilirubin-albumin binding**, neonatal jaundice, transcutaneous bilirubinometry, 23  
**birth asphyxia**, vasopressin (arginine vasopressin), osmolality, syndrome of inappropriate antidiuretic hormone secretion (SIADH), 119  
**birth weight**, unmarried mothers, cohabiting mothers, preterm births, low birth weight, small for gestational age, perinatal mortality, 157  
**breathing movements**, respiratory reflexes, behavioural states, fetus, ultrasound, 145
- cohabiting mothers**, unmarried mothers, birth weight, preterm births, low birth weight, small for gestational age, perinatal mortality, 157  
**congenital myotonic dystrophy**, ventilation, development, 99  
**cerebral blood flow velocity**, term infants, 73
- development**, congenital myotonic dystrophy, ventilation, 99
- early mortality**, twins, postneonatal death, 89  
**early pregnancy**, fetal heart rate, transvaginal ultrasound, 151
- fetal-neonatal comparison**, fetal behavioural states, neonatal behaviour, 39  
**fetal behavioural states**, neonatal behaviour, fetal-neonatal comparison, 39  
**fetal heart rate**, early pregnancy, transvaginal ultrasound, 151  
**fetus**, respiratory reflexes, behavioural states, ultrasound, breathing movements, 145
- gastric dimension**, stomach development, human fetus, real-time ultrasound, 15  
**gas trapping**, neonatal ventilation, respiratory distress, pancuronium, 51
- head circumference**, intrauterine growth retardation, minor neurological dysfunction, behavioural development, 1  
**heart rate**, heart rate variability (HRV), ambulatory monitoring, sudden infant death syndrome (SIDS), 57  
**heart rate variability (HRV)**, heart rate, ambulatory monitoring, sudden infant death syndrome (SIDS), 57  
**human fetus**, stomach development, gastric dimension, real-time ultrasound, 15
- intrauterine growth retardation**, head circumference, minor neurological dysfunction, behavioural development, 1
- kidney**, ultrasound, neonate, 29
- low birth weight**, unmarried mothers, cohabiting mothers, birth weight, preterm births, small for gestational age, perinatal mortality, 157
- minor neurological dysfunction**, intrauterine growth retardation, head circumference, behavioural development, 1
- neonatal anthropometry**, preterm infants, regression analysis, 131  
**neonatal behaviour**, fetal behavioural states, fetal-neonatal comparison, 39  
**neonatal jaundice**, transcutaneous bilirubinometry, bilirubin-albumin binding, 23  
**neonatal ventilation**, gas trapping, respiratory distress, pancuronium, 51  
**neonate**, kidney, ultrasound, 29
- osmolality**, birth asphyxia, vasopressin (arginine vasopressin), syndrome of inappropriate antidiuretic hormone secretion (SIADH), 119

- pancuronium**, neonatal ventilation, gas trapping, respiratory distress, 51
- perinatal mortality**, unmarried mothers, cohabiting mothers, birth weight, preterm births, low birth weight, small for gestational age, 157
- postneonatal death**, twins, early mortality, 89
- preterm babies**, abumin, total protein, 81
- preterm births**, unmarried mothers, cohabiting mothers, birth weight, low birth weight, small for gestational age, perinatal mortality, 157
- preterm infants**, neonatal anthropometry, regression analysis, 131
- real-time ultrasound**, stomach development, human fetus, gastric dimension, 15
- regression analysis**, neonatal anthropometry, preterm infants, 131
- respiratory distress**, neonatal ventilation, gas trapping, pancuronium, 51
- respiratory reflexes**, behavioural states, fetus, ultrasound, breathing movements, 145
- small for gestational age**, unmarried mothers, cohabiting mothers, birth weight, preterm births, low birth weight, perinatal mortality, 157
- stomach development**, human fetus, gastric dimension, real-time ultrasound, 15
- sudden infant death syndrome (SIDS)**, heart rate, heart rate variability (HRV), ambulatory monitoring, 57
- syndrome of inappropriate antidiuretic hormone secretion (SIADH)**, birth asphyxia, vasopressin (arginine vasopressin), osmolality, 119
- term infants**, cerebral blood flow velocity, 73
- total protein**, abumin, preterm babies, 81
- transcutaneous bilirubinometry**, neonatal jaundice, bilirubin-albumin binding, 23
- transvaginal ultrasound**, fetal heart rate, early pregnancy, 151
- twins**, postneonatal death, early mortality, 89
- ultrasound**, kidney, neonate, 29
- ultrasound**, respiratory reflexes, behavioural states, fetus, breathing movements, 145
- unmarried mothers**, cohabiting mothers, birth weight, preterm births, low birth weight, small for gestational age, perinatal mortality, 157
- vasopressin (arginine vasopressin)**, birth asphyxia, osmolality, syndrome of inappropriate antidiuretic hormone secretion (SIADH), 119
- ventilation**, congenital myotonic dystrophy, development, 99
